

Country Ways
The Test Valley

A popular tv series for over 20 years, *Country Ways* is a collection of gentle film portraits about the southern English countryside, as seen through the eyes and described in the words of people who live and work there.

A peaceful haven of beautiful sights and sounds, *Country Ways* also provides a lasting nostalgic record of the ways of life, arts, crafts, trades and pastimes which still exist in spite of the pressures and progress of modern times.

This DVD spans nearly three decades of life in the beautiful Test Valley in Hampshire and visits a selection of villages and hamlets along the course of the river Test, from Andover to Southampton Water.

Among the many local characters we meet are farmers and smallholders, river keepers, fishermen, gardeners, wheelwrights and thatchers - all sharing their knowledge and appreciation of life in this part of the south country.

Duration approx. 70 mins.
